

THE TAPE FACTORY

TAPING
SOLUTIONS

THE SPECIALIST IN TAPES AND TOOLS

The founder's experience in the flower and packaging industry combined with the knowledge of Innoseal, are the basis on which The Tape Factory was built. The idea to create an automated taper to gently bundle flowers efficiently, while saving time and reducing costs, was **born in 2010!**

Innoseal® has 25 years of success using specialized tape and paper in food packaging and has expanded into floriculture.

**THE FIRST
FULLY AUTOMATED
HIGH SPEED
FLORAL TAPER!**

The Tape Factory lunched in 2016, with its first product in the industry: The "**FreshSealer**" an automated, high speed, floral taper (with option of a sachet dispenser unit).

The **XL-Sealer** was engineered in 3 sizes. This manual system provides the same closure as the FreshSealer.

Provides a **timesaving, user-friendly** solution which **maintains the quality** of the flower without pinching the stems!

THE PERFECT BUNDELING SYSTEM

TIME EFFICIENT

With the XL-Sealer, you can make a quick closure in one simple move. Want to go faster? The FreshSealer can handle up to 5,000 closures per hour. Choose your speed, stay efficient.

QUALITY

The Tape Factory excels in both performance and material quality. Our tape has the perfect amount of tack to hold flower sleeves securely. Plus, the closure is water-resistant and stays transparent. At 19 mm wide, the closure properly distributes tension across the stems.

EASY TO OPEN

Skip the scissors and knives. Our tape is easy to remove and vase ready. The paper tabs act as a handle, making it a breeze to open the tape closure.

CUSTOM

Want to make it your own? The paper can be customized with a logo, message, or instructions.

UNIFORMITY

The FreshSeal ensures that every bouquet's quality, tightness, and appearance stay consistent.

AUTOMATED

The first fully automated, high-speed floral taper cuts labor costs and boosts output.

EASY TO USE

The FreshSealer's multilingual display makes it user-friendly for everyone. Using the XL-Sealer? Just run your bunch or bouquet down through the slot.

COSTS

Time is money! Cut labor costs with less downtime, efficient production, and automation.

QUALITY IS IN OUR STEMS

The FreshSealer uses 19 mm tape to keep flowers in top shape, avoiding stem pinching. Our combo of paper and tape ensures easy hand-opening, so no need for sharp tools that could harm the flowers. All materials are specially selected for optimal function and automation. One tape and paper set binds approximately 2,000 bouquets/bundles*.

* Depending on bouquet size

SAVING MONEY

The FreshSealer applies up to 5,000 closures an hour, freeing up employees for other tasks. It auto-adjusts tape length for each bouquet, ensuring efficient FreshSeal closures.

The Fresh Sealer is available for lease or purchase.
